Invitation to join ASOPRS as a Reciprocal Society

ashok grover <akgrover55@yahoo.com>
to info, APSOPRS, me

Dr. Shannath Merbs,
Executive Secretary,
ASOPRS.

Dear Dr. Merbs,

Thanks for the invitation from Dr. Jill Foster, ASOPRS president, conveyed through the Executive Director, Ms. Tisha Kehn to APSOPRS for becoming a “reciprocal society” of the ASOPRS. The Asia Pacific Society that represents the speciality of Oculoplastics for over half the population of the world, welcomes the initiative and looks forward to a long, fruitful relationship.

We believe that such an association would contribute greatly to the advancement of the science and growth of the speciality.

The APSOPRS was founded in the year 2000 in Philippines and has held 7 very well attended, scientifically acclaimed meetings in locations as varied as Philippines, Australia, Korea, China, Singapore, with the next meeting scheduled in India. The society has elaborate criteria related to practice of ophthalmic plastic surgery for becoming members or fellows of the society, which can be viewed on www.apsoprs.org.

The APSOPRS holds biennial general membership meetings. In addition the society regularly sponsors and is co-participant in several meetings organized mainly by the national Oculoplastic Societies in the region.

I therefore feel that the APSOPRS fulfils the requirements enlisted in the ASOPRS by-laws and looks forward to a great relationship.

I will be attending the meeting of ASOPRS in Chicago next week and it will be a pleasure to meet President Jill Foster, you and Ms. Tisha for discussion on how to carry the relationship forward.

Warmest regards,

Ashok Grover
Dear all,

I am glad to inform you that the reciprocal membership between the APSOPRS and ASOPRS was approved at the ASOPRS meeting in Chicago. This creates a bond between the two societies and includes invitation to the other society at the meetings of each society. It also gives our members the option of becoming members of ASOPRS much more easily if desired. This is a positive achievement for the society and I would like to congratulate the team for their spadework which made the task possible. I, Dr Javate and Dr Chee Chew met the president Jill Foster and executive secretary Ms Tisha at Chicago and discussed these and other aspects. We are in the process of finalising some of the detailing and will get back to you.
On behalf of the International Council of Ophthalmology’s Board of Directors, I am very pleased to announce that the Asia Pacific Society of Ophthalmic Plastic Reconstructive Surgery’s application for ICO membership has been approved. It is my pleasure to welcome you and your society to the ICO’s dynamic global community working together to improve ophthalmic education, enhance eye care, and advance leadership.
